HOW TO KILL A POST

- Don't participate – **THEN** complain that you have no voice
- Decline all offices – **THEN** offer advice on how things should have been done
- Don't attend meetings or submit new ideas – **THEN** play "Devil's Advocate"
- Don't Volunteer – **THEN** gripe that you are never asked
- If by chance the Post grows and is successful, despite your non-help – BRAG to all who will listen about how hard it was for you to build up the post alone
